MasterPiece®

Power Control Center

For almost ten years, American business has relied on the MasterPiece line of power control centers. During that time it has become both the best-selling name in power control and a corporate standard. In fact, many companies won't buy a computer without a MasterPiece power control center.

MasterPiece

(840 JOULES. 7 SURGE-PROTECTED OUTLETS)

This best-selling power control center features a high joule rating (840 joules), advanced multi-stage surge suppression,

seven surge-protected outlets, convenient master switching, EMI/RFI noise filtering and anti-static protection. Two of the outlets (side and back) have continuous power for peripherals you want to leave on all the time.

Power up or power down your entire system with one convenient master switch. Individual switches control peripherals.

Advanced 3-line protection (hot,neutral and ground). Two front panel indicator lights warn you of improper building wiring and protective circuitry failure. An extra long 8-1/2 foot heavy-duty power cord for added protection and convenience.

MasterPiece Plus

(1400 JOULES. 7 SURGE-PROTECTED OUTLETS)

The award-winning MasterPiece Plus offers all the features of MasterPiece and more. You also get a higher joule rating (1400 joules), phone/modem/fax surge suppression and a dual-alert (light and buzzer) low voltage warning system.

MasterPiece Plus Remote

(420 JOULES. 5 SURGE-PROTECTED OUTLETS)

Advanced multi-stage surge suppression in a unique two-part design. Plug your computer and peripherals into the base unit. Then power up or power down your entire system up to nine feet away using the remote unit. Three individual switches control peripherals. A continuously powered outlet for peripherals you want to leave on all the time (like a battery charger or answering machine). Includes EMI/RFI noise filtering, anti-static protection, phone/fax/modem surge suppression and a surge suppression warning light.

MasterPiece Compact

(220 JOULES. 4 SURGE-PROTECTED OUTLETS)

Space saving and economical. This compact unit features advanced multi-stage surge suppression with four surge-protected outlets, master switching, noise filtering, anti-static protection and a surge suppression warning light. Four individual switches control peripherals.

Technical Specifications and Warranty Information.

MasterPiece Product	Energy Rating (Joules)	Clamping Voltage (TVSS Rating)	Typical Response Time	Current Peak (Amps) 3-line Protection	EMI/RFI Filtering	Telephone Protection	Switches/Outlets	Safety Compliance: UL1449	UL1363	UL1283	IEEE C62 41 1991	CSA/C-UL
